

Bell & Howell Single-lens 8mm Movie Cameras

with Sun Dial exposure guide

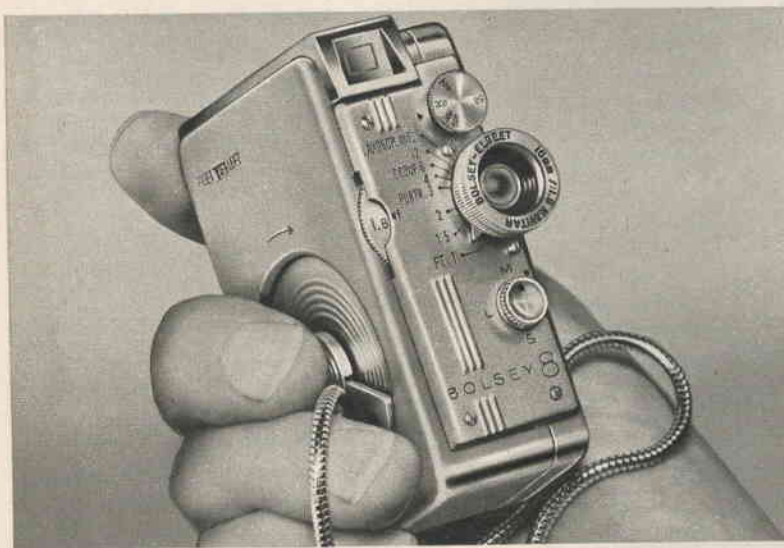

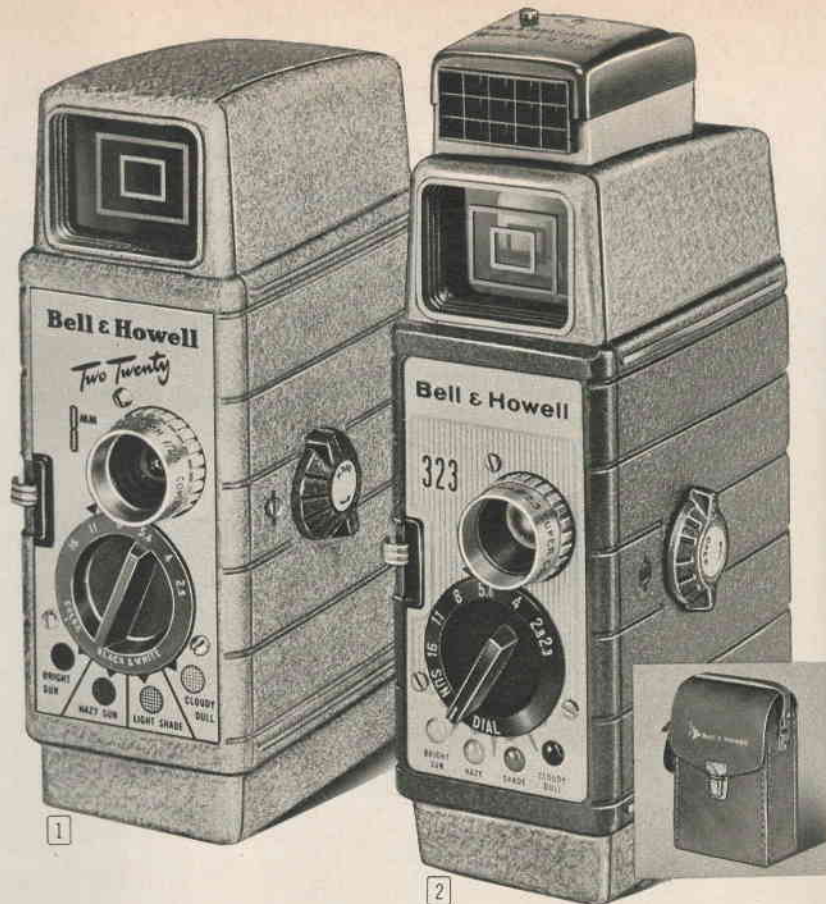

Camera only
Low as **\$34⁹⁵**

Sun Dial helps you set lens opening for good movie making. Simply adjust Sun Dial on front of camera to match outdoor light conditions and you're ready to shoot.

1 Compact, easy-to-use favorite that gives you beautiful home movies at low cost! Super Comat 10mm f:2.5 lens (56% more picture area than ordinary 13mm lenses). Fixed focus from 3½ ft. Speed: 16 frames per second—no adjustments to make. Continuous lock run lets you get into picture. Single-frame exposure for special effects. Film footage indicator. Runs 10 ft. each winding. Economical spool loading. Metal body. Uses series 4 filters, ¼-in. adapter ring (see page 72).
3 CA 8213—Bell & Howell model 220. Shpg. wt. 4 lbs. \$34.95

2 Bell & Howell model 323 with attached Sunometer exposure meter. You get exact lens settings with no guesswork. Read number on photoelectric meter, set same number on Sun Dial and shoot perfectly exposed movies. Meter may be removed from top of camera for off-the-camera readings and special effects. All other features same as camera above.
